

To: Potential and Registered Interested and Affected Parties

NOTIFICATION OF CONTINUED PUBLIC PARTICIPATION AS PART OF THE BASIC ASSESSMENT PROCESS FOR THE PROPOSED PHASE 2 EXTENSION OF HOUMOED AVENUE AND UPGRADING OF MASIPHUMELELE INFORMAL SETTLEMENT, SUNNYDALE AND MASIPHUMELELE, CAPE TOWN: DRAFT BASIC ASSESSMENT REPORT (UNDER A NEW APPLICATION FOR ENVIRONMENTAL APPLICATION)

(DEA:DP REF: 16/3/3/1/A6/50/2046/19)

Date: 12 September 2019

Dear Sir / Madam

Notice is hereby given of a Public Participation Processes (PPP) in terms of the Environmental Impact Assessment (EIA) Regulations, as amended, contained in section 24(5) of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) for **THE PROPOSED PHASE 2 EXTENSION OF HOUMOED AVENUE AND UPGRADING OF MASIPHUMELELE INFORMAL SETTLEMENT.**

A brief description of the abovementioned application and a Locality Map is provided in **Appendix A** of this letter. The development proposal triggers the following listed activities in terms of the 2014 EIA Regulations (as amended), in terms of sections 23(2), 24(5), 24D and 44 read with section 47A {1}(b) of the National Environmental Management Act (NEMA) 1998 (Act No. 107 of 1998):

GN R327 **Listing Notice 1**, Activity 19
GN R327 **Listing Notice 1**, Activity 48
GN R324 **Listing Notice 3**, Activity 23

It should be noted that a previous Draft Basic Assessment Report (BAR) was subject to public review during 2018 and an application for Environmental Authorisation submitted to the competent authority, the Department of Environmental Affairs & Development Planning (DEA&DP). This application was however withdrawn in March 2019 prompted by a change in the mechanism to secure the required wetland offset into perpetuity.

This letter serves to notify that a new application for Environmental Authorisation has been submitted to the authorities and an updated Draft BAR and supporting documentation are now available for the required 30-day public review period. All public participation undertaken in terms of the previous application will constitute 'pre-application public participation activities' in support of the new application. Interested and Affected Parties are thus encouraged to only comment on the changes to the updated Draft BAR as comments submitted during the preceding public review period have already been included and responded to in the BAR. Should you however consider the resubmission of comments previously raised, we kindly request that any additions or changes to those comments be clearly marked for our attention.

For ease of reference, additions are indicated in orange text. Key differences between the previous BAR and updated BAR are also clearly summarised.

Please note that the public review relates only to Phase 2 of the proposal. The public review period for the proposed Phase 1 Extension of Houmoed Avenue has closed.

Details of the availability of the documentation are tabled below.

**YOUR INVITATION TO PARTAKE IN THE PUBLIC REVIEW PERIOD OF THE DRAFT BASIC ASSESSMENT REPORT
HOUMOED PHASE 2**

DATE: 13 September 2019 to 14 October 2019
VENUE: Sun Valley Post Office (Longbeach Mall)
Masiphumelele Community Centre

An electronic copy of the documentation will also be made available for download on the website of Chand Environmental Consultants (www.chand.co.za).

Should you or your organisation have any comments or queries regarding the proposal or documentation, please ensure that you provide your comment in writing to **Claudette Muller** by no later than **14 October 2019**. **You are again encouraged to limit your comment to new issues. All previous comments have been noted and recorded for consideration by the competent authorities.**

Postal Address: PO Box 238, Plumstead, 7801
Fax: 086 665 7430
Tel: 021 762 3050
Email: support@chand.co.za

Please note that I&APs must provide their name, contact details (postal address, telephone, fax numbers and email address) and an indication of any direct business, financial, personal, or other interest they may have in the approval or refusal of this application. Kindly quote the reference number 16/3/3/1/A6/50/2046/19 in your comment.

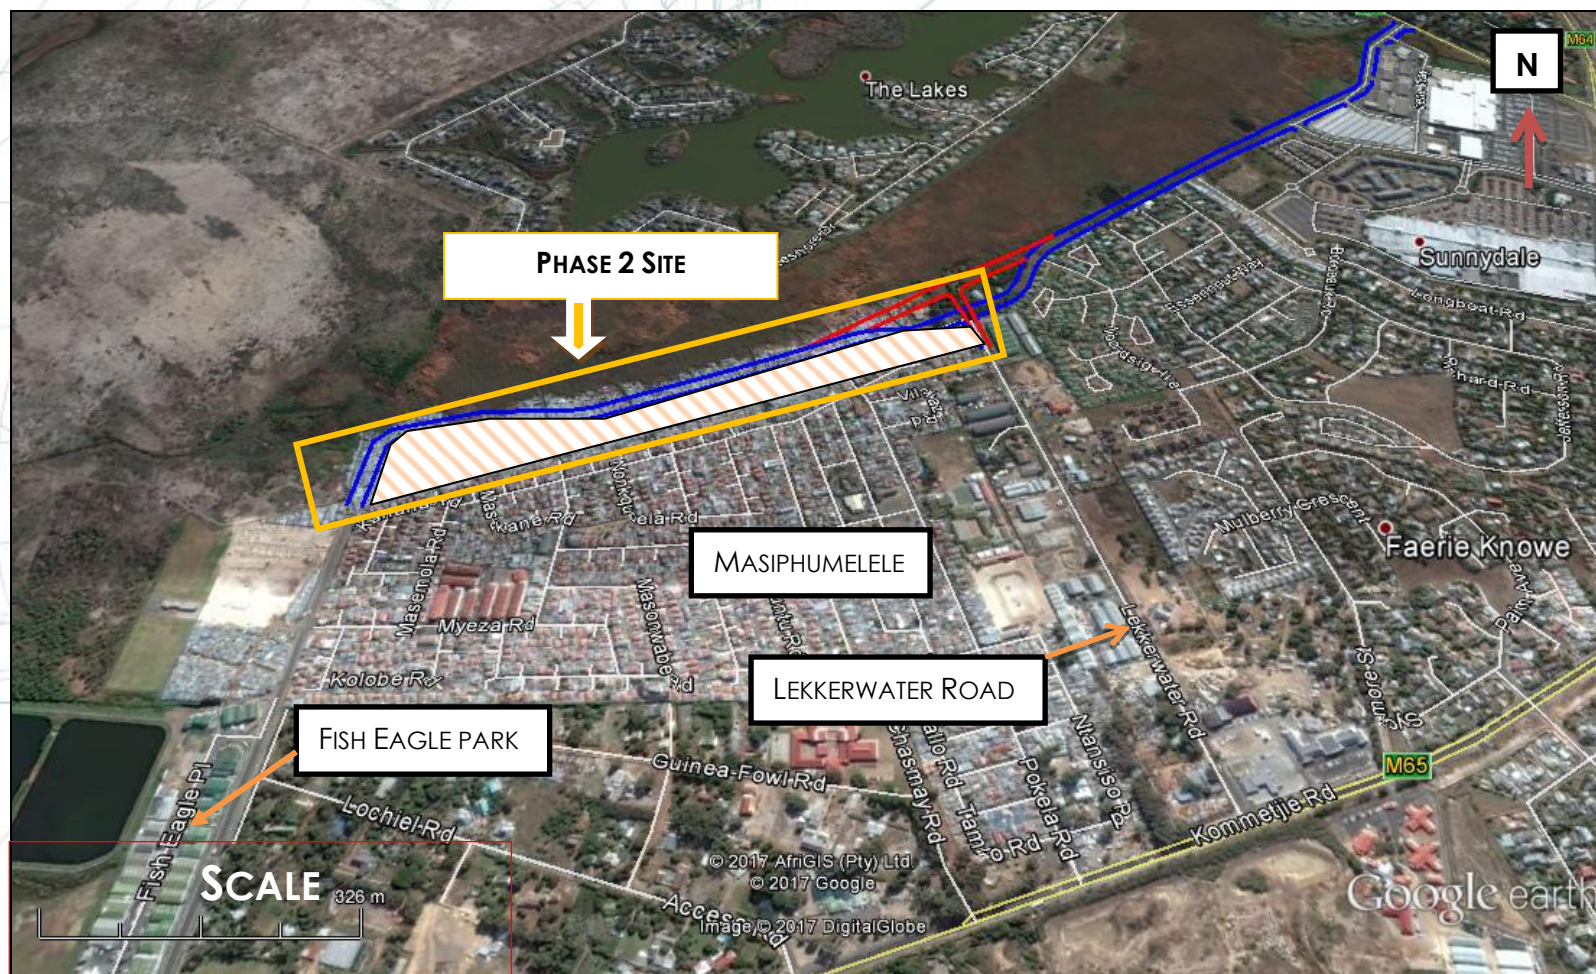

Kind regards

Ingrid Eggert
Chand Environmental Consultants

Appendix A: Project description and Locality Map for Houmoed Phase 2

The City of Cape Town is proposing to extend the existing portion of Houmoed Avenue from Fish Eagle Park in the west up to Lekkerwater Road. The project would also entail the upgrade of the informal settlement currently located to the north of the formal housing in Masiphumelele. It is approximated that 2500 households are currently located in this area and it is anticipated that approximately 1500 households can be accommodated subsequent to the informal settlement upgrade. Relocation of approximately 1000 households will therefore be necessitated. The total length of the road extension is 940m and extends over 7 properties. It runs inside existing informal settlement infilled area and the portions of the southern fringes of the adjacent wetland.

**YOUR INVITATION TO PROVIDE COMMENTS ON THE PROPOSED PHASE 2 EXTENSION OF HOUMOED AVENUE AND UPGRADING OF MASIPHUMELELE INFORMAL SETTLEMENT, SUNNYDALE AND MASIPHUMELELE, CAPE TOWN
DRAFT BASIC ASSESSMENT REPORT**

We appreciate your interest and participation in this process. If you have any issues, questions or concerns regarding this project specifically, please ensure to have your comments returned to us by **14 October 2019**. **Kindly limit comment to new issues. All previous comments have been noted and recorded for consideration by the competent authority.**
