

INGRID EGGERT CURRICULUM VITAE

Profession/Specialisation : Environmental Assessment Practitioner and Public Participation Consultant
Nationality : South African
Years' Experience : 10

KEY QUALIFICATIONS

Ingrid Eggert is a senior environmental consultant at Chand Environmental Consultants. She has training and experience in undertaking Environmental Impact Assessments, public participation processes, Opportunities and Constraints Analysis, strategic environmental input, and facilitating and managing the construction and operational phases of projects.

Ingrid has gained valuable experience in conflict resolution on a number of projects, which is critical for successfully engaging stakeholders and the public during the numerous Public Participation Processes she has undertaken. Furthermore, she has experience in developing and implementing ISO 14000, Environmental Management Systems, and undertaking Due Diligence and Gap Analysis audits across various industries.

Ingrid's capabilities include (*inter alia*):

- Facilitation of stakeholder engagement and public participation processes
- Environmental Impact Assessment processes (Scoping and Environmental Impact Assessments, Basic Assessments, Section 24G rectification processes, Waste Management/Air Emission Licence applications, Water Use Licence applications)
- Compilation of Environmental Management Programmes for the Construction, Operational, Decommissioning and Closure Phases of projects
- Due Diligence auditing
- Compliance audits
- Carbon Footprinting
- Construction and operational environmental monitoring
- Environmental training/education
- Development and implementation of Environmental Management Systems
- Sustainability strategies

Ingrid's job experience and her academic qualification promote a well-rounded, practical approach to solving environmental issues, focusing on efficient communication to ensure a solution in the best interest of all parties involved.

She has guided the development of projects through the tendering, design, construction and operational phases.
