- MP talked to the presentation in **Appendix B**.
- MP highlighted that wards 80 and 34 would be affected as the route falls within the limits of those wards.
- Following delivery of the presentation, the following issues/comments were raised by various Councillors and the Chair:
 - The question was asked about job creation and the manner in which jobs would be provided to members of the local community. MP explained that the work would go out to tender and that all City-contractors must provide local residents with work opportunities and training, adding that there are certain percentages of the contract value which would have to be spent on employing residents from the area where the project is taking place.
 - With respect to the heritage of the local people and the area, a request was made to honour both the living and deceased through the design of the proposal, e.g. murals.
